

Pandora (Wednesday)

I have to go a long way to the polling station to vote

I hope it doesn't rain

I don't want to get wet

I like to vote in the morning to get it done

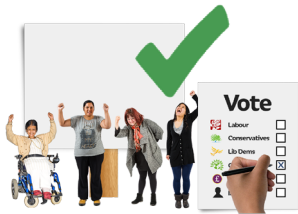

Then I don't have to think about it for the rest of the day

I have only ever missed one election because I was in hospital

My arm was hurt and I couldn't leave the hospital and couldn't vote

I was annoyed because women should be able to vote

Women know what is important

Women make better choices about spending money
